15. On June 5, 2017, Mylan Pharma filed petitions for *Inter Partes* Review of the ’652 and ’930 patents. *Mylan Pharms. Inc. v. Sanofi-Aventis Deutschland GmbH*, IPR2017-01526, Paper 2 (P.T.A.B. June 5, 2017); *Mylan Pharms. Inc. v. Sanofi-Aventis Deutschland GmbH*, IPR2017-01528, Paper 2 (P.T.A.B. June 5, 2017). In accordance with 37 C.F.R. § 42.8(b)(1), Mylan identified Mylan Pharma, Mylan Inc., Mylan GmbH, and Mylan N.V., among others, as real parties-in-interest. *Id.* at 2.

16. That Mylan Pharma, Mylan Inc., Mylan GmbH, and Mylan N.V. are real parties-in-interest to the petitions filed in IPR2017-01526 and IPR2017-01528 indicates that all four Mylan entities stand to benefit from approval of NDA No. 210605.

Exhibit X at 2.

23. On information and belief, Mylan GmbH, Mylan N.V., Mylan Inc., and Mylan Pharma hold themselves out as a unitary entity and represent to the public that their activities are directed, controlled, and carried out as a single entity.

JURISDICTION AND VENUE

24. Plaintiffs repeat and re-allege paragraphs 1-23 above as if fully set forth herein.

25. This is an action for patent infringement and arises under the patent laws of the United States, Title 35, United States Code. This Court has jurisdiction over the subject matter of this action pursuant to 28 U.S.C. §§ 1331, 1338(a), 2201, and 2202.

26. On information and belief, Mylan GmbH, with the assistance and/or direction of Mylan N.V., Mylan Inc., and/or Mylan Pharma, develops, formulates, manufactures, imports, offers for sale, sells, commercializes, markets, and/or distributes follow-on versions of branded pharmaceutical products in/into the United States, including in/into the State of West Virginia.

27. On information and belief, Mylan N.V., Mylan Inc., and Mylan Pharma acted in concert with Mylan GmbH to develop Mylan GmbH's copies of Sanofi's Lantus[®] and Lantus[®] SoloSTAR[®] drug products ("Proposed Products").

28. On information and belief, Mylan GmbH, acting in concert with Mylan N.V., Mylan Inc., and Mylan Pharma, prepared and filed NDA No. 210605, seeking approval from the

FDA to sell its Proposed Products throughout the United States, including within the State of West Virginia.

29. On information and belief, Mylan N.V., Mylan Inc., and Mylan Pharma, acting in concert with Mylan GmbH, participated in the preparation and/or filing of NDA No. 210605, seeking approval from the FDA to sell the Proposed Products throughout the United States, including within the State of West Virginia.

30. Mylan N.V., Mylan GmbH, Mylan Inc., and Mylan Pharma therefore committed an act of infringement in the State of West Virginia, by participating in the preparation, filing, and submission of New Drug Application (“NDA”) No. 210605 pursuant to § 505(b)(2) of the FDCA to FDA, accompanied by a Paragraph IV Certification.

31. This Court has personal jurisdiction over Defendants because, *inter alia*, they have committed an act of patent infringement under 35 U.S.C. § 271(e)(2), and intend a future course of conduct that includes acts of patent infringement in the State of West Virginia. These acts have led and will lead to foreseeable harm and injury to Plaintiffs in the State of West Virginia. For example, on information and belief, following approval of NDA No. 210605, Defendants intend to and will work in concert to make, use, import, sell, and/or offer for sale the Proposed Products that are the subject of NDA No. 210605 in/into the United States, including in/into this State, prior to the expiration of the patents-in-suit.

32. This Court has personal jurisdiction over Defendants because Defendants maintain continuous and systematic contacts with this judicial district. Either directly, or through their subsidiaries, agents, and/or affiliates, Defendants have conducted and continue to conduct business in this judicial district, including, upon information and belief, by manufacturing, marketing, and selling drug products throughout the United States and in the State of West Virginia.

33. This Court has personal jurisdiction over Mylan N.V. because, *inter alia*, Mylan N.V., on information and belief, directly or through its subsidiaries, agents and/or affiliates: (1) maintains substantial, systemic, and continuous contacts with the State of West Virginia; (2) regularly transacts and/or solicits business in the State of West Virginia; (3) continuously and systematically places its products into the stream of commerce for distribution and consumption in the State of West Virginia and throughout the United States; (4) engages in the regular conduct of business within this judicial district; (5) derives substantial revenue and income from sales of its follow-on versions of branded pharmaceutical products throughout the United States, including in the State of West Virginia; (6) maintains a broad distributorship network within this State; and (7) intends to manufacture for distribution, market, sell, or distribute the Proposed Products to residents of this State, which is confirmed by the filing of NDA No. 210605. *See Acorda Therapeutics Inc. v. Mylan Pharms. Inc.*, 817 F.3d 755, 759-63 (Fed. Cir. 2016), *petition for cert. denied*, *Mylan Pharms. Inc. v. Acorda Therapeutics, Inc.*, No. 16-360 (U.S. Jan. 9, 2017).

34. Additionally, personal jurisdiction over Mylan N.V. is also proper because Mylan N.V. has previously availed itself of the benefits and protections afforded by the Court. *See, e.g., Pfizer Inc. et al. v Mylan Inc., Mylan N.V., Mylan Pharms. Inc. et al.*, Civil Action No. 1:15-cv-00188-IMK (N.D.W. Va. Oct. 23, 2015); *Noven Pharms., Inc. v. Mylan Inc., Mylan N.V., Mylan Pharms., Inc. et al.*, Civil Action No. 1:15-cv-00194 (N.D.W. Va. Oct 29, 2015).

35. This Court has personal jurisdiction over Mylan GmbH because, *inter alia*, Mylan GmbH, on information and belief, directly or through its subsidiaries, agents and/or affiliates: (1) maintains substantial, systemic, and continuous contacts with the State of West Virginia; (2) regularly transacts and/or solicits business in the State of West Virginia; (3) continuously and systematically places its products into the stream of commerce for distribution and consumption

in the State of West Virginia and throughout the United States; (4) engages in the regular conduct of business within this judicial district; (5) derives substantial revenue and income from sales of its follow-on versions of branded pharmaceutical products throughout the United States, including in the State of West Virginia; (6) maintains a broad distributorship network within this State; and (7) intends to manufacture for distribution, market, sell, or distribute the Proposed Products to residents of this State, which is confirmed by the filing of NDA No. 210605. *See Acorda*, 817 F.3d at 759-63.

36. This Court has personal jurisdiction over Mylan Inc. because, *inter alia*, Mylan Inc., on information and belief, directly or through its subsidiaries, agents and/or affiliates: (1) is registered to do business in the State of West Virginia under entity Org. ID No. 230499 and has appointed Corporation Service Company, 209 West Washington Street, Charleston, WV 25302 as its registered agent for receipt of process; (2) maintains substantial, systemic, and continuous contacts with the State of West Virginia, including through subsidiary Mylan Pharma; (3) regularly transacts and/or solicits business in the State of West Virginia; (4) continuously and systematically places its products into the stream of commerce for distribution and consumption in the State of West Virginia and throughout the United States; (5) engages in the regular conduct of business within this judicial district; (6) derives substantial revenue and income from sales of its follow-on versions of branded pharmaceutical products throughout the United States, including in the State of West Virginia; (7) maintains a broad distributorship network within this State; and (8) intends to manufacture for distribution, market, sell, or distribute the Proposed Products to residents of this State, which is confirmed by the filing of NDA No. 210605. *See Acorda*, 817 F.3d at 759-63.

37. Additionally, personal jurisdiction over Mylan Inc. is also proper because Mylan Inc. has previously availed itself of the benefits and protections afforded by the Court. *See, e.g.,*

Pfizer Inc. et al. v Mylan Inc., Mylan N.V., Mylan Pharms. Inc. et al., Civil Action No. 1:15-cv-00188-IMK (N.D.W. Va. Oct. 23, 2015).

38. This Court has personal jurisdiction over Mylan Pharma because, on information and belief, directly or through its subsidiaries, agents and/or affiliates, *inter alia*, Mylan Pharma: (1) is registered to do business in the State of West Virginia under entity Org. ID No. 20402, is incorporated in the State of West Virginia, and has a principal place of business in the State of West Virginia; (2) is registered with the State of West Virginia's Board of Pharmacy and Department of Health as a drug manufacturer and wholesaler; (3) has appointed Corporation Service Company, 209 West Washington Street, Charleston, WV 25302, as its registered agent for receipt of process; (4) maintains substantial, systemic, and continuous contacts with the State of West Virginia; (5) regularly transacts and/or solicits business in the State of West Virginia; (6) continuously and systematically places its products into the stream of commerce for distribution and consumption in the State of West Virginia and throughout the United States; (7) engages in the regular conduct of business within this judicial district; (8) derives substantial revenue and income from sales of its follow-on versions of branded pharmaceutical products throughout the United States, including in the State of West Virginia; (9) maintains a broad distributorship network within this State; and (10) intends to manufacture for distribution, market, sell, or distribute the Proposed Products to residents of this State, which is confirmed by the filing of NDA No. 210605. *See Acorda*, 817 F.3d at 759-63.

39. Additionally, personal jurisdiction over Mylan Pharma is also proper because Mylan Pharma has previously availed itself of the benefits and protections afforded by the Court. *See, e.g., Pfizer Inc. et al. v Mylan Inc., Mylan N.V., Mylan Pharms. Inc. et al.*, Civil Action No.

1:15-cv-188-IMK (N.D.W. Va. Oct. 23, 2015); *Fresenius Kabi USA, LLC et al. v. Mylan Inc. & Mylan Pharms. Inc. et al.*, Civil Action No. 1:15-cv-185-IMK (N.D.W. Va. Oct. 19, 2015).

40. This Court therefore has personal jurisdiction over all Defendants.

41. Venue is proper in this judicial district as to all Defendants pursuant to 28 U.S.C. §§ 1391 and 1400(b).

42. Venue is proper as to alien defendant Mylan N.V. under § 1391(c)(3).

43. Venue is proper as to alien defendant Mylan GmbH under § 1391(c)(3).

44. Venue is proper as to Mylan Pharma because Mylan Pharma is incorporated, and thus resides, in the State of West Virginia.

45. Venue is proper as to Mylan Inc. because Mylan Inc. has committed acts of infringement and has a regular and established place of business in the State of West Virginia and/or because Mylan Pharma's residency in the State of West Virginia can be imputed onto Mylan Inc.

46. On information and belief, Mylan Inc. has committed acts of infringement in the State of West Virginia, and throughout the United States, because it intends to manufacture for distribution, market, sell, or distribute the Proposed Products to residents of this State, which is confirmed by the filing of NDA No. 210605. *See Acorda*, 817 F.3d 759-63; *Bristol-Myers Squibb Co. v. Mylan Pharm. Inc.*, No. CV 17-379-LPS, 2017 WL 3980155, at *8-14 (D. Del. Sept. 11, 2017).

47. On information and belief, Mylan Inc. has regular and established places of business located in the State of West Virginia through its wholly-owned subsidiary, Mylan Pharma.

- (a) On information and belief, these physical locations include at least the facilities at the following three addresses: (1) 781 Chestnut Ridge Road, Morgantown, West Virginia 26505-4310, (2) 5005 Greenbag Road, Morgantown, WV 26508, and (3) 3711 Collins Ferry Road, Morgantown, WV 26505 (collectively, “Morgantown Locations”).
- (b) The three Morgantown Locations are both “regular and established” because they maintain an orderly and permanent presence within the State of West Virginia. For example, Mylan’s website reports that “Mylan’s team in West Virginia is helping deliver better health around the world and throughout the Mountain State. Our manufacturing facility in Morgantown – Mylan’s largest – produced approximately 17 billion doses of medicine for U.S. patients in 2016. Our scientists and regulatory experts innovate every day to develop a variety of types of medicines.” Exhibit V. The Mylan website also reports that Morgantown is “[h]ome to Mylan’s largest manufacturing plant, with a footprint of approximately 1 million square feet,” and “to one of Mylan’s two global R&D centers of excellence.” *Id.* at 2. Finally, Mylan is a “TOP 5 private employer in the state” of West Virginia. *Id.* Thus, the Morgantown Locations are both regular and established.
- (c) The Morgantown Locations are a place of defendant Mylan Inc. because, on information and belief, Mylan Pharma is a wholly-owned subsidiary of Mylan Inc., Mylan Inc. exercises attributes of possession and control over the Morgantown Locations, and/or Mylan Inc. and Mylan Pharma operate as one entity. *Infra* at ¶¶ 48-50.

48. On information and belief, Mylan Inc. operates through the Morgantown Locations. Though Mylan Inc. is incorporated in and has a principal place of business in Pennsylvania, it has still corresponded with the FDA using one of Mylan Pharma's Morgantown addresses. Exhibits Y and Z (letters from FDA to Mylan Inc. in "West Virginia"). For example, the FDA sent a letter to Mylan Inc. regarding its petition requesting the FDA to stay the approval of a drug, and addressed the letter to "Brian S. Roman, Vice President and General Counsel, North America, Mylan, Inc., 781 Chestnut Ridge Road, Morgantown, WV 26505." Exhibit Z.

49. On information and belief, Mylan Inc. and Mylan Pharma hold themselves out as a unitary entity and represent to the public that their activities are directed, controlled, and carried out as a single entity. For example:

- (a) In a March 3, 2017 comment in response to an FDA notice and request for information to assess Generic Drug User Fee Amendments ("GDUFA") program fees for fiscal year 2018, Mylan Pharma requested that the "'affiliated' corporate entities listed below be consolidated under 'Mylan Inc.' for the purposes of assessing a single GDUFA II program fee[.]" Exhibit AA. The corporate entities listed included Mylan Pharma. *Id.*
- (b) Mylan Inc. and the other Mylan Defendants operate as "ONE Mylan" with Mylan Pharma and other Mylan subsidiaries in the State of West Virginia, as evidenced by shared revenue reporting. On information and belief, Mylan Pharma's revenue is reported with Mylan Inc.'s revenue as part of one North American segment. For instance, in its presentation to investors in 2017, Mylan stated that it has changed its "segment reporting to reflect ONE Mylan." Exhibit BB at 18. Thus, instead of reporting profitability for two segments—Generic and Specialty—it now reports

profitability based on three regional segments—North America, Europe, and the rest of the world. *Id.*

(c) Mylan Inc. and the other Mylan Defendants hold themselves out as “ONE Mylan” with Mylan Pharma and other Mylan entities. That is, Mylan Inc. describes itself as “ONE Mylan,” with a “horizontally and vertically integrated platform with global scale.” Exhibit CC at 4.

(d) On information and belief, “ONE Mylan” uses one newsroom for press releases involving products from various subsidiaries. *See* Exhibits FF, GG, DD and EE.

50. On information and belief, Mylan Pharma’s residency in the State of West Virginia can be imputed onto Mylan Inc. because the above facts, and others, indicate that the two entities disregard the corporate form.

51. Venue is proper as to all Defendants.

The '652, '930, '833, '297, '864, '044, '069, '486, '391, '211, '979, '844, '105, '331, '008, '009, '409, and '189 patents are collectively referred to herein as "the patents-in-suit," and true and correct copies each patent are attached respectively as Exhibits A-R. By assignment, Sanofi GmbH owns all right, title, and interest in and to the patents-in-suit. Sanofi U.S. and/or SWIND are the exclusive licensees of certain rights in or to the patents-in-suit. Plaintiffs have the right to sue and recover damages for the infringement of the patents-in-suit.

LANTUS® AND LANTUS® SOLOSTAR®

71. Sanofi U.S. is the holder of the approved New Drug Application ("NDA") No. 21-081 for insulin glargine [rDNA origin] for injection, which is prescribed and sold in the United States under the trademarks Lantus® and Lantus® SoloSTAR®. Currently, there is one follow-on version of Lantus® SoloSTAR® on the market in the United States, manufactured and distributed by Eli Lilly and Company under a license from Plaintiffs. There are no non-licensed generic or follow-on versions of Lantus® or Lantus® SoloSTAR® on the market in the United States.

72. The publication *Approved Drug Products with Therapeutic Equivalence Evaluations* (the "Orange Book") identifies drug products approved on the basis of safety and effectiveness by FDA under the FFDCA. The patents-in-suit are listed in the Orange Book as covering Sanofi's Lantus® and/or Lantus® SoloSTAR® products.

73. Each of the patents-in-suit was submitted for listing and listed in the Orange Book for Sanofi's NDA No. 21-081 prior to Mylan's submission of NDA No. 210605.

ACTS GIVING RISE TO THIS ACTION

74. On information and belief, and as stated in the letter dated September 15, 2017 and received by Plaintiffs on or about September 18, 2017 (purporting to be a notice pursuant to Section 505(b)(2)(A)(iv), (b)(3) of the FFDCA (the “Notice Letter”)), Mylan GmbH submitted NDA No. 210605 to the FDA pursuant to 21 U.S.C. § 355(b)(2) seeking FDA’s approval to engage in the commercial manufacture, use, sale and/or importation of its versions of Lantus® and Lantus® SoloSTAR®, an insulin glargine [rDNA origin] 100 u/mL for subcutaneous injection including a vial containing the active ingredient insulin glargine in 100 u/mL (“Proposed Vial Product”) and a prefilled pen containing the active ingredient insulin glargine in 300 units/3 mL (100 units/mL) (“Proposed Prefilled Pen Product”) (collectively, “Proposed Products”). On information and belief, Mylan’s NDA No. 210605 contains data from bioavailability and/or bioequivalence studies conducted in connection with Sanofi U.S.’s NDA No. 21-081. The filing of Mylan’s NDA No. 210605 constitutes an act of infringement under 35 U.S.C. § 271(e)(2)(A).

75. On information and belief, Mylan GmbH, in collaboration with Mylan N.V., Mylan Inc., and Mylan Pharma, submitted NDA No. 210605 to the FDA under 21 U.S.C. § 355(b)(2) of the FFDCA containing data from bioavailability or bioequivalence studies conducted in connection with Sanofi U.S.’s NDA No. 21-081 and seeking the FDA’s approval to manufacture commercially and sell its Proposed Products.

76. Upon information and belief, Mylan GmbH, in concert with Mylan N.V., Mylan Inc., and Mylan Pharma, collaborated in the development of Mylan’s Proposed Products and preparation and filing of NDA No. 210605.

77. On information and belief, on September 15, 2017, as part of the foregoing act of infringement, Mylan GmbH, in collaboration with Mylan N.V., Mylan Inc., and Mylan Pharma, sent a Notice of Certification (the “Notice Letter”) pursuant to 21 U.S.C. § 355(b)(2) and 21 C.F.R.

§ 314.52 to Sanofi U.S. and Sanofi GmbH, which discloses that Mylan's NDA No. 210605 contained Paragraph IV certifications for the patents-in-suit. In its Notice Letter, Mylan stated that its certifications to the FDA allege that the patents-in-suit are not valid, are unenforceable, and/or will not be infringed by the manufacture, use, offer to sell, sale, or importation of the Proposed Products before their respective expirations.

78. Sanofi U.S. received Mylan's Notice Letter on September 18, 2017 in the District of New Jersey.

79. Sanofi GmbH received Mylan's Notice Letter on September 18, 2017 in Germany.

80. Mylan's Notice Letter was accompanied by an Offer of Confidential Access ("OCA").

81. Since receiving Mylan's Notice Letter and the accompanying OCA, Sanofi has negotiated in good faith with Mylan to procure a copy of NDA No. 210605 and related product information under restrictions as would apply had a protective order been issued. Sanofi timely responded to all correspondence with Mylan and sought to reach reasonable compromise with Mylan regarding its OCA. These negotiations have been unsuccessful.

82. Because of the onerous and unreasonable restrictions on production, disclosure, and use of the information under the OCA insisted upon by Mylan, which Sanofi could not reasonably accept, no information under the OCA has been supplied by Mylan to Sanofi.

83. In the absence of such information, Plaintiffs resort to the judicial process and the aid of discovery to obtain, under appropriate judicial safeguards, such information as is required to confirm its allegations of infringement and to present to the Court evidence that the Proposed Products fall within the scope of one or more claims of the patents-in-suit.

84. Plaintiffs commenced this action within 45 days after receiving Mylan's Notice Letter.

85. FDA's approval of Mylan's NDA No. 210605 may only be made effective upon a date consistent with 21 U.S.C. § 355(c)(3)(C).

86. On information and belief, Mylan's manufacture, use, sale and/or offer to sell in the United States, and/or importation into the United States, of its Proposed Products would infringe one or more claims of each of the patents-in-suit, directly or indirectly.

87. On October 24, 2017, Plaintiffs filed a complaint against these same Mylan Defendants for infringement of the same patents-at-suit here in the United States District Court for the District of New Jersey. The resulting action is presently pending as Civil Action No. 2:17-cv-09105. The New Jersey complaint alleges the same acts of infringement as the present complaint.

88. Based upon the Mylan Defendants' substantial, continuous and systematic business contacts with New Jersey, they should be subject to personal jurisdiction and venue in the District of New Jersey; however, the Mylan Defendants may assert that they are not subject to personal jurisdiction in New Jersey and/or that venue in New Jersey is improper.

89. Accordingly, Plaintiffs are filing the instant complaint, which has identical infringement claims against Mylan as in the New Jersey action – a so-called Hatch-Waxman “protective suit” – to preserve their right to a 30-month stay under 21 U.S.C. § 355(j)(5)(B)(iii).

COUNT 1

(Infringement of U.S. Patent No. 7,476,652)

90. Plaintiffs repeat and re-allege paragraphs 1-89 above as if fully set forth herein.

91. On information and belief, Mylan submitted NDA No. 210605 to the FDA to obtain approval from the FDA under the FDCA to engage in the commercial manufacture, use, importation, offer to sell and/or sale of its Proposed Products before the expiration of the '652

patent. On information and belief, Mylan filed NDA No. 210605 pursuant to § 505(b)(2) of the FDCA seeking approval to engage in the commercial manufacture, use, and/or sale of the Proposed Products using data from bioavailability or bioequivalence studies conducted in connection with Sanofi's NDA No. 21-081 before the expiration of the '652 patent. Mylan's submission of NDA No. 210605 is an act of infringement of the '652 patent under 35 U.S.C. § 271(e)(2)(A).

92. On information and belief, Mylan was aware of the '652 patent prior to filing NDA No. 210605. If Mylan's NDA No. 210605 is approved, Mylan's manufacture, use, sale and/or offer to sell in the United States, and/or importation into the United States of its Proposed Products would infringe the '652 patent under 35 U.S.C. §§ 271(a), (b), and/or (c), literally and/or under the doctrine of equivalents because, *inter alia*, the Proposed Products constitute a material part of the claimed invention and Mylan is aware that its manufacture, use, sale and/or offer to sell in the United States, and/or importation into the United States of the Proposed Products will constitute infringement.

93. The acts of infringement set forth above will cause Plaintiffs irreparable harm for which they have no adequate remedy at law. Such infringement and resulting irreparable harm will continue unless FDA's approval of NDA No. 210605 is stayed, and Mylan is enjoined by the Court from engaging in further infringing acts, pending a date that is not earlier than the expiration of the '652 patent, or any later date of exclusivity to which Plaintiffs and/or the '652 patent are, or become, entitled.

95. On information and belief, Mylan submitted NDA No. 210605 to the FDA to obtain approval from the FDA under the FDCA to engage in the commercial manufacture, use, importation, offer to sell and/or sale of its Proposed Products before the expiration of the '930 patent. On information and belief, Mylan filed NDA No. 210605 pursuant to § 505(b)(2) of the FDCA seeking approval to engage in the commercial manufacture, use, and/or sale of the Proposed Products using data from bioavailability or bioequivalence studies conducted in connection with Sanofi's NDA No. 21-081 before the expiration of the '930 patent. Mylan's submission of NDA No. 210605 is an act of infringement of the '930 patent under 35 U.S.C. § 271(e)(2)(A).

96. On information and belief, Mylan was aware of the '930 patent prior to filing NDA No. 210605. If Mylan's NDA No. 210605 is approved, Mylan's manufacture, use, sale and/or offer to sell in the United States, and/or importation into the United States of its Proposed Products would infringe the '930 patent under 35 U.S.C. §§ 271(a), (b), and/or (c), literally and/or under the doctrine of equivalents because, *inter alia*, the Proposed Products constitute a material part of the claimed invention and Mylan is aware that its manufacture, use, sale and/or offer to sell in the United States, and/or importation into the United States of the Proposed Products will constitute infringement.

97. The acts of infringement set forth above will cause Plaintiffs irreparable harm for which they have no adequate remedy at law. Such infringement and resulting irreparable harm continue unless FDA's approval of NDA No. 210605 is stayed, and Mylan is enjoined by the Court from engaging in further infringing acts, pending a date that is not earlier than the expiration of the '930 patent, or any later date of exclusivity to which Plaintiffs and/or the '930 patent are, or become, entitled.

On information and belief, Mylan submitted NDA No. 210605 to the FDA to obtain approval from the FDA under the FDCA to engage in the commercial manufacture, use, importation, offer to sell and/or sale of its Proposed Prefilled Pen Product before the expiration of the '833 patent. On information and belief, Mylan filed NDA No. 210605 pursuant to § 505(b)(2) of the FDCA seeking approval to engage in the commercial manufacture, use, and/or sale of the Proposed Prefilled Pen Product using data from bioavailability or bioequivalence studies conducted in connection with Sanofi's NDA No. 21-081 before the expiration of the '833 patent. Mylan's submission of NDA No. 210605 is an act of infringement of the '833 patent under 35 U.S.C. § 271(e)(2)(A).

100. On information and belief, Mylan was aware of the '833 patent prior to filing NDA No. 210605. If Mylan's NDA No. 210605 is approved, Mylan's manufacture, use, sale and/or offer to sell in the United States, and/or importation into the United States of its Proposed Prefilled Pen Product would infringe the '833 patent under 35 U.S.C. §§ 271(a), (b), and/or (c), literally and/or under the doctrine of equivalents because, *inter alia*, the Proposed Prefilled Pen Product constitutes a material part of the claimed invention and Mylan is aware that its manufacture, use, sale and/or offer to sell in the United States, and/or importation into the United States of the Proposed Prefilled Pen Product will constitute infringement.

If Mylan's NDA No. 210605 is approved, Mylan's manufacture, use, sale and/or offer to sell in the United States, and/or importation into the United States of its Proposed Prefilled Pen Product would infringe the '979 patent under 35 U.S.C. §§ 271(a), (b), and/or (c), literally and/or under the doctrine of equivalents because, *inter alia*, the Proposed Prefilled Pen Product constitutes a material part of the claimed invention and Mylan is aware that its manufacture, use, sale and/or offer to sell in the United States, and/or importation into the United States of the Proposed Prefilled Pen Product will constitute infringement.

133. The acts of infringement set forth above will cause Plaintiffs irreparable harm for which they have no adequate remedy at law. Such infringement and resulting irreparable harm will continue unless FDA's approval of NDA No. 210605 is stayed, and Mylan is enjoined by the Court from engaging in further infringing acts, pending a date that is not earlier than the expiration of the '979 patent, or any later date of exclusivity to which Plaintiffs and/or the '979 patent are, or become, entitled.
